

- heat gun

Specifications

Description	heat gun
Operating temp. Min.	80°C
Operating temp. Max.	+650°C
Approvals / Standards	

Colours

Technical specifications

Technical specifications	Values
Dimensions	253 x 86,5 x 200 mm
Mains power supply	230 V, 50/60 Hz
Output	2300 W
Temperature	80 - 650°C, freely adjustable
Airflow rate	150 - 500 L/min, freely adjustable
Steps	2
Special features	Residual heat indicator
	4 program presets
	LOC-function
	1 Hand-design
	replaceable power cable
	Soft handle
Mounting	improved position of the centre of gravity
Motor	Brushless motor
Heating element	Ceramic heat element
Lifetime Motor	1.000 h
